a variety of incidents, on sea and shore, related in a vivid manner."

From The New-York Express.

"The freshest, the most picturesque and truthful volume of the kind since the time when Cooper led as through the 'Camp Fires' of the same six nations among whom its scenes are cast. The volume is really written in a crisp and racy style, crowded with adventure and action of the right romantic sort. Its narrative is clear and vigorous, its scenery and characters imbued with a genuineness of imagination and thought, and its aims and development the most legitimate possible. We accept unhesitatingly the unqualified commendation which has been already lavished upon it by the Press."

From The Pittsburgh Garette.

"The incidents are stirring, the narrative is well sustained, and the work will be hailed as another excellent addition to the species of popular literature made classical by Cooper."

CAMP FIRES OF THE RED MEN;

OR, A HUNDRED YEARS AGO.

By J. R. ORYON, M. D.

This tale of "Love and Arms," by Dr. Orton, is likely to prove a book-feature of the season. An eminent author and critic who examined the manuscript pronounced it equal to the best of our Indian Tales.

NOT EXCEPTING COOPER'S. and in some respects superior to any of them. This high judgment is thus far sustained. In vivid and powerful description—interest which never flags—quiet beauty of diction, and that rare bleroing of pathes and humor—equally charming to old and young grave and gay—this work will challenge comparison with eny recent production. The following are extracts from some of the notices of the Press:

"This book needed not the apology which the author has made in his preface. He may believe us that his book is a good one, its principal, almost its only fault, being that rare one, that it is rather crowied with adventures. However, as there is no deficiency of freshness or originality in these, his fault is a very vertial one. "In many parts the book is highly dramatic—in none does the interest flag. Numerous characters are introduced, most of whom are distinctively individualized. There is a variety of incidents, on sea and shore, related in a vivid manner." "LETTERS from the PEOPLE." TETTERS from the PEOPLE."

"It has created quite a senastion in literary circles, and met with an unusually large sale. It has been reprinted in Engiand, France and Germany, and has already sequired for the youthful authories an enviable reputation as a writer of originality and genius. 'Alone' is a nevel something after the class of Shirley' and 'Jane Eyre,' in many of its characteristics, but infinitely superior to both of those brilliant works of fiction in its moral purity of tone and delicacy of sentiment. Less skillful in its plot, it is yet more natural and lifelike, and if not so intensely worked up in its details to that pitch of excitement which satiated readors of runance require, it is nevertheless more pie-sing to those who prefer truthful pictures of life to exagerated and overwrought descriptions of human character, ida Rose, the heroine of Alone, while possessing masculine vicer and breadth of mind, retains the delicacy and refinement of a true woman and while displaying all the strength of intellect of the plain little Jane Eyre, has none of her disagreeable consenses. 'Charley', unother of the dramatis persons, is a decided character—one of those creations which live in the namony for years.

"Marion Harland, the author of 'Alone' and the 'Hidden and the 'Hidden' and

when recently furnished us with the author of the Lamplighter, may also claim a paternal interest in the writer of 'Alone,' one of the nest promising and talented female novelists in the country."

THE NEW-YORK LEDGER.

THE NEW-YORK LEDGER, so beautifully pressed,
Of all Family Papers is surely the best;
So epicy, so sparking, so handsomely printed,
Nor leaders, nor cuts, nor stories are stinted,
But all is so liberal, so fresh, so refined,
Competitors, numberless, struggle in vain,
For Boner knows well the true LEDGER-demain;
He knows what will please the young and the old,
The sad and the lively, the modest and bold;
And in his broad pages he always contrives
To please staters and brothers, and husbands and wives.
The LEDGER some grize for its wisdom and humor.
And other attractions whose manes we've no room for,
For its Fern Leaves and Fashions the ladies it buy,
For its Pictures the children tilks Sherman's) all cry.
Then any it and read it—read every letter,
For its contents will certainly make you all better.
Soid by all newsyenders at four cents.

O U R S L A V E S T A T E S .
Author of Weiks and Talks of an American Farmer in England,

AJOURNEY

SEABOARD SLAVE STATES.

1 vol., 17mo., cloth, 725 pp. Wood Cuts. Price \$1.25.

From The Boston Intelligencer.

"A manly style, healthy and vigorous, marked the former work of this author, and few of our readers who remember the 'American Farmer in England' will ask us to commend to their attention Mr. Olmsted's present work. He has spared us that trouble; for he is not forgotten, but lives in the me mories of all who read the work we have alluded to. The strong prejadice existing in his mind is as well disguised in the work before us as we could expect; and we think this work will axed a creat in fluence upon the public mind. It is written in a fair, open and honorable manner; and its candid style challenges able refutation rather than energing contempt. It cannot be met by weakness, but whoever would cope with its author must come well armed and without a fear. There is a facination about this work we seldom see in books of nourists' travels, and it deserves the careful perusal of every man, woman and child, for it treats of subjects interesting the future as well as the present. We think it must meet with a very large sale."

"We know of no person whom we would more willingly trust to make a tour of observation in the Southern States than the author of 'Walks and Talks of an American Farmer in England.' Mr. Olmsted is a shrewd, careful, accurate observer of men and things, and he reports the result of his travels if rakly, impartially, housely, and in plain, pithy English. The present volume is a revised republication of the letters originally contributed to The N. Y. Daily Times, in 183, under the signature of 'Yeoman,' and it presents the best and most satisfactory view of the South, its institutions and people, that we remember ever to have seen in print. The book concludes with a most able and decisive comparison of the comparative value of slave and free labor, and the relative condition of slave and free labor, and the relative condition of slave and free labor, and the relative condition of he save and

ought to be read aloud to every defender of Slavery in the land."

From The Montpelier State Journal.

"Under this very modest title we have found one of the most interesting and clearly the most valuable books on the actual condition of the Slave States that we have ever met with Rich in scenes and incidents, and graphic in style, the book is at aking as a romance—while the abundance of facts, diven by a strewd but candid observer, and the fair deductions therefrom, afford a picture of Slavery which every reader will be forced to believe is as true as it is striking. Everybody should read the book—the farmers, by all means, if they would get an introduction to Southern farming, the best as well as the worst."

From The New-Bedford Mercury.

"To those who have read the previous work of this author—the present more extended tour of Mr. Olmstead in our Seaboard Slave States will not need much to recommend it. Like that work, this is a graphic and practical account of the author'experience as he traveled leisurely along in the domains of the planter, gaining information on the agriculture, productions, and customs of the land, and especially on the subject of Slavery and its influences.

To those who wish for information on our Southern country we can freely commend this book as a substantial and well-prepared narrative of how things look and are in a region of the earth that is to most Northerners far less known, and deemed far less accessible, than Great Britain or Europe. The ludustry of the author has been great; his linguires minute and well pointed; and he has brought away from his field of research interesting traits and peculiar details that demand a pen and a mind swigners to catch and depict."

"In each of these States Mr. Olmsted has not only very carefully observed the condition of the slave, but he has also, with all the ardor of a practiced statistician, studied the workings of the institution, its influence as well upon the master as the servant, the profit accruing from forced labor, the prospects
